Advocacy at the State Level – FY 2017

- Governor's Proposed Budget for FY2017 focuses on 3 major points:
 1. Program sustainability in preparation for anticipated growth in aging population;
 2. Commitment to rebalancing – supporting older adults in community based settings; and,
 3. Flexibility in delivery of services and supports.

Community Reinvestment Program

– FY 2017

- Enrollment in the Department on Aging's Community Care Program has significantly grown over the past 10 years.

- Looking forward, the growth in Illinois' aging population will also more than double by 2030.
- Sustaining CCP as it exists today will cost an additional \$93.3 million in the next six years (assuming the completion of the managed care transition by FY 2018).

Community Reinvestment Program

– FY 2017

- Implementation of the Community Reinvestment Program (CRP) is contingent upon an approved FY 2017 Illinois Budget.
- Draft CRP Rules will be shared with the Aging Network on May 13, 2016.

Community Reinvestment Program (CRP) – FY 2017

- The Community Reinvestment Program is a new initiative targeted to older adults who are not eligible for CCP who need assistance to live independently in the community.
- The initiative represents a long term strategy to maintain community-based supports for our current aging population as well to address the anticipated growth in the population its first year at a funding level of \$228 Million.

CRP Transition Plan – FY 2017

- Non-Medicaid eligible clients will have their DON score applied to the new service cost maximum table to derive a new individual spending allocation.
- CRP will provide greater flexibility of services. The AAA Network (Area Agencies on Aging) will be utilized as the mechanism for the coordination of preventative services.

CRP Transition Plan – FY 2017

- Similar to other states, Illinois' approach will maintain a service package for individuals that do not meet Medicaid eligibility requirements.
- This approach will maintain the Department's commitment to maintaining individuals in their own home and community and delay the number of admissions in nursing facilities, which is currently a large portion of the Medicaid budget at \$1,583,008,257 per year out of the total spending for Medicaid Long Term Care.
