The Illinois Family Caregiver Act

An Opportunity to Support Caregivers

SB 2617, Sponsored by Sen. Lightford
HB 4014, Sponsored by Rep. Lilly

Support

Fund the Illinois Family Caregiver Act

The law, PA 93-0864 passed in 2004, established a caregiver support program to assist unpaid caregivers including grandparents raising grandkids (kinship care) through training and education to develop essential caregiving skills and other interventions to provide relief and reduce stress. In 2023, the Illinois General Assembly passed \$5 million in funding to support the Illinois Family Caregiver Act for FY24. This was the second time the act has been funded at the state level. We greatly appreciate the \$5 million appropriation however more funding is needed to adequately support Illinois Family Caregivers.

Our Ask

Increase from \$5 to \$6 million to fund the Illinois Family Caregiver Act, an investment in our family caregivers.

100% of funds will go towards expanding existing services to support:

- Evidence-based assessments that tailor interventions to caregivers' unique needs
- Support services and respite care that provide temporary relief to caregivers
- Hands-on caregiver training, education and stress relief programs
- A wide range of other support for Grandparents & others raising children
- Saves Medicaid dollars by delaying costly nursing home placement

Illinois Association of Area Agencies on Aging 2026 State Legislative Priorities

SUPPORT UNPAID FAMILY CAREGIVERS

\$1M increase in Illinois Family Caregiver Act¹ funding to \$6M to support unpaid family caregivers.

- An AARP study found there are **over 1.3 million caregivers²** in Illinois **providing 1.21 billion hours** of unpaid work annually with an estimated value of \$21B.
- In Illinois, caregivers potentially **save Medicaid \$22M annually** when nursing home placement is delayed due to support for unpaid caregivers.

INCREASE STATE FUNDING FOR HOME DELIVERED MEALS

\$10M increase to maintain services to address the high need for meals and offset the inflationary costs for food, gas, and labor.

- During FY 2024, more than 11 million meals were served to over 60,000 older adults statewide.
- HDMs reduce hospital readmissions, increase potential for Medicaid savings, and improve health outcomes

EDUCATE OLDER ADULTS ON SCAMS

Better coordination of existing resources can help Area Agencies on Aging educate and increase awareness of scams and reduce financial exploitation.

- Reported scams impacting those aged 60+ ballooned from \$931M in 2021 to \$1.86B in 2023, an **increase of 100%³**.

SUSTAIN PROGRAMMING TO COMBAT SOCIAL ISOLATION

Level funding to support programs to alleviate isolation among older people.

- Lack of social connection increases the risk of premature death as if **smoking 15 cigarettes a day**.
- According to a 2023 US Surgeon General's report, "Loneliness can have profound effects on mental health, heart disease, stroke and dementia, **resulting in billions of dollars spent in health care costs.**"

SUSTAIN STATE FUNDING FOR ALZHEIMER'S DISEASE AND RELATED DISORDERS

Level funding to "fill the gaps" in services and fund evidence-based training for caregivers.

- Without this support, caregivers may face placing their loved ones into long-term care settings prematurely.
- Alzheimer's is the **6th leading cause of death and most expensive disease in America.**

Leaders in Aging Well at Home

OLDER AMERICANS ACT

GET THE FACTS

For more than 50 years, the Older Americans Act (OAA) has connected older adults and their caregivers to services that help older adults age with health, dignity and independence in their homes and communities—where they want to be! In 2025, Congress must again reauthorize this vital federal program that serves every community in the country. With the rapid growth of America's aging population, one in five Americans are projected to be 65 or older by 2030. It is essential that Congress make wise investments in critical OAA programs and services.

Why is the OAA Important? The OAA...

Enables aging well at home and in the community—where people want to be.

The OAA enables the local delivery of services and supports that can help older adults be better able to age where they want—in their homes and communities. Examples include in-home help, meals, transportation, home modification, legal services and many other supportive services that keep older adults healthy and independent.

Prevents the need for more expensive long-term care or avoidable health care costs.

Services provided at home and in the community are almost always less expensive than institutional care provided in nursing homes or assisted living. The longer older adults can successfully age at home, the better it is financially for families and the federal government. OAA programs and services also support healthy aging, further saving Medicare and Medicaid dollars.

Supports family caregivers.

Family caregivers are the backbone of the nation's long-term services and supports system. The OAA provides vital supports to caregivers to bolster their ability to continue caring for their loved ones.

Reflects community needs.

OAA services are delivered through a nationwide network of community-based agencies and service providers that know and can best meet the needs of older adults and caregivers in their communities through a range of programs and services. While the services are generally available to everyone age 60 and older, they are targeted to those most in need of support to age well at home.

Protects vulnerable older adults.

The Act's services also help to identify and prevent the abuse and neglect of older Americans, as well as protect the rights of nursing home residents through an ombudsman program.

Visit www.usaging.org/OAA to learn more about the Older Americans Act reauthorization.

ECIAAA will adjust interfund transfers among OAA Titles III-B and Title III-C to sustain Coordinated Points of Entry/Senior Information Services whenever possible.

If the planning allocation is drastically reduced and/or eliminated for a specific revenue source, then funds would be reduced for programs and services which are directly related to that revenue source. When there are immaterial changes to planning allocations, ECIAAA may revise interfund transfers to account for the changes.

FY 2025-FY 2027 Contingency Planning -
